### International Society for Technology in Education (ISTE) Presents Justin Sims' iFix for Reading & Writing ONLINE

Many students struggle with both Reading and Writing during classroom activities, assignments, and tests. In fact, sometimes we assess these students based on their ability to read and write instead of their ability to learn a concept. In this session, participants will explore dynamic applications on the ios platform that augment real-world text and assignments to fit the learning needs of the individual.

Webinar will be hosted by ISTE Mobile Learning Network [HERE](#) from 9:00 AM to 9:45 AM on 11-05

Louisiana participants can register below:

### On Time, Prepared, and In Control: Executive Functioning Strategies for Success

When students have issues with executive functioning, any task that requires planning, organization, memory, time management and flexible thinking becomes a challenge. We will explore these challenges as well as strategies to help your students improve their executive skills and manage the difficulties.

### Core Vocabulary Communication Make-N-Take

Nearly 80% of our daily language consists of Core Words. Can you imagine spending days..months..years without effectively communicating "stop" "go" "want" "more"...etc. ? Some nonverbal students never receive a systematic and dynamic form of expression using the verbiage and motor plan necessary to communicate. In this session, participants will explore the power of core vocabulary and implementation using best practices. All will leave with a low tech core board (materials provided), strategies, and resources.
